Upay for Manglik blemish in Lal-Kitab

Asht koot matching can be done through calling name, but match making is not been completed, because matching of traits is not enough for marriage. Planets, houses and signs present in birth chart of bride and groom can not be matched through calling name. Manglik (kup) effect can not be determined and removed from calling name also. Therefore, horoscope is necessary for complete match making.

## WS- Adyakshar based Marriage Matching

Through this workscreen, you can match two persons without having Date of Birth and Time of Birth. This is called Adyakshar (First Character of Name) Based Marriage Matching. In today's time also, people in villages don't note date and time of new born baby, especially in case of girls. This tool could be very useful to fulfill these type of queries.

### What is KaalSarpa Yoga?

When all the planets are situated between Rahu and Ketu i.e., the moon's north node and the moon's south node, KaalSarpa Yoga is formed. Complete KaalSarpa yoga is formed only when half of the chart is unoccupied by planets. Even if one planet is outside the degree of Rahu and Ketu Axis, there is no KaalSarpa Yoga.

With the help of this tool they can assess auspiciousness – evilness of any planet.

**Planetary Combination Serach in Varsha Phala:** If one or more than one planets are making any benefic or malefic yoga in Lagna Kundali or Varsha Phala Kundali, then there is provision for checking the same in complete life cycle, i.e. 120 years
